Israel's Impressive Resume…

Dear Friends of WWP I ran across this information from the KUMAH.org website about some of Israel's accomplishments. If you want to read more about Israel's accomplishments go to this website

- The Middle East has been growing date palms for centuries. The average tree is about 18-20 feet tall and yields about 38 pounds of dates a year.

- Israeli date trees are now yielding 400 pounds/year and are short enough to be harvested from the ground or a short ladder .

- Israel the 100th smallest country, with less than 1/1000th of the world's population, can lay claim to the following: The cell phone was developed inIsrael by Israelis working in the Israeli branch of Motorola, which has its largest development center inIsrael .

- Most of the Windows NT and XP operating systems were developed by Microsoft-Israel.

- The Pentium MMX Chip technology was designed in Israel at Intel.

- Both the Pentium-4 microprocessor and the Centrino processor were entirely designed, developed and produced in Israel.

- The Pentium microprocessor in your computer was most likely made in Israel.

- Voice mail technology was developed in Israel.

- Both Microsoft and Cisco built their only R&D facilities outside the US in Israel.

- The technology for the AOL Instant Messenger ICQ was developed in 1996 by four young Israelis.

- Israel has the fourth largest air force in the world (after the U.S,Russia andChina). In addition to a large variety of other aircraft,Israel's air force has an aerial arsenal of over 250 F-16′s. This is the largest fleet of F-16 aircraft outside of the U. S.

- Israels $100 billion economy is larger than all of its immediate neighbors combined.

- Israel has the highest percentage in the world of home computers per capita.

- According to industry officials, Israel designed the airline industry's most impenetrable flight security. US officials now look (finally) to Israel for advice on how to handle airborne security threats.

- Israel has the highest ratio of university degrees to the population in the world.

- Israel produces more scientific papers per capita than any other nation by a large margin – 109 per 10,000 people — as well as one of the highest per capita rates of patents filed.

- In proportion to its population, Israel has the largest number of startup companies in the world. In absolute Israel has the largest number of startup companies than any other country in the world, except the U.S. ! (3,500 companies mostly in hi-tech).

- With more than 3,000 high-tech companies and startups, Israel has the highest concentration of hi-tech companies in the world — apart from the Silicon Valley, U.S.

- Israel is ranked #2 in the world for venture capital funds right behind the U.S.

- Outside the United States and Canada, Israel has the largest number of NASDAQ listed companies.

- Israel has the highest average living standards in theMiddle East.

- The per capita income in Israel in 2000 was over $17,500, exceeding that of the UK.

- On a per capita basis, Israel has the largest number of biotech startups.

- Twenty-four per cent of Israel's workforce holds university degrees, ranking third in the industrialized world ,after the United States and Holland and 12 per cent hold advanced degrees.

   What a great friend we have in Israel. God said in His word '"I will bless those who bless my people and curse those who curse my people." So lets continue to bless the greatest friend the US has in the middle-east, Israel.

   Mike O'Donell
